PROJECTS

FOODIESINLOVE (HTTPS://FOODIESINLOVE.HEROKUAPP.COM)
- FoodiesInLove is a dating web application for people who enjoy and experiment different types of food. The app asks users to sign up with basic personal information and three restaurants they would love to try out. The user is then matched with potential foodies with matching restaurants. This was created in a 4-day sprint.
- Integrated with Yelp API to autocomplete and suggest restaurant names.
- Technologies Used: MongoDB, Express, Node, React, HTML/CSS

HOMECOOKED (HTTP://HOMECOOKED-MEAL-PLANNER.HEROKUAPP.COM)
- Homecooked is a web application where users can post, delete, edit, adopt, and share their favorite recipes to a community of like-minded people. The main feature is the meal-planner feature where users can plan their meals throughout the week.
- Migrated existing storage from MySQL to MongoDB.
- Developed RESTful API for basic CRUD operations on recipe database.
- Technologies Used: MongoDB, Express, Node, React, SASS, Webpack, Babel, HTML/CSS

POSTR (HTTPS://SHROUDED-BADLANDS-30340.HEROKUAPP.COM)
- Postr is a Twitter spin-off where users can create posts about their thoughts and opinions. The unique feature Postr has is that users can edit their posts. To make it more community-like, a public chat feature is created where users can see who is signed on and are able chat with them. This was created in a 4-day sprint.
- Created the public chat feature with Socket.io and the feature where users can edit their posts.
- Technologies Used: Express, Node, PostgreSQL, JavaScript, Socket.io

GEAR-RACK (HTTPS://GEAR-RACK.HEROKUAPP.COM)
- Gear-Rack is a web application for users who love to do outdoor activities. Users can post, delete, and rate outdoor gear such as hiking poles and boots for others to see. Created a backpack widget where users can add equipment from fellow hikers or backpackers into their bag to see how heavy their load will be. This was created in a 4-day sprint.
- Technologies Used: Ruby on Rails, JavaScript, HTML/CSS

TECHNICAL SKILLS

JavaScript, React, Node, Express, MongoDB, HTML/CSS, SQL, PostgreSQL, SASS, Webpack, Ruby on Rails, jQuery
